

*Penstemon azureus*  
Azure Penstemon

Photographs by Margaret L. Fillius

PERENNIAL - evergreen.

1 to 2' high, 2 to 3' spread.

Low-growing with blue-green foliage along stems.

Prolific brilliant lavender-blue flowers - spring.

Native habitat: chaparral, woodland, forest below 7500' - northern Sierra Nevada, northwest California, Cascade range, Oregon.

Full sun to part shade. Frost resistant.

Water 1 x /month.

Good in borders. Attracts butterflies and hummingbirds.
