

Arctostaphylos glauca

Big Berry Manzanita

TALL SHRUB—evergreen
8-12' high. Wide, upright.
Chalky pale green leaves on
pale green branchlets.
Red-brown bark.
Pale pinkish white flowers—
early winter.
Large fruits, 1/2" diameter

Native habitat: rocky slopes,
chaparral, woodlands
below 4000' —through-
out southern California
and into Baja California

Full sun.

Needs good drainage.

Works well in background and
slope plantings.

Good accent plant.
