

# *Arctostaphylos pajaroensis* 'Paradise'

## Pajaro Manzanita

SHRUB - evergreen.

3 - 8' high, 3 - 6' spread.

Stems erect with dark reddish/gray bark.

Leaves variable, but mainly turning a slate-green - new leaves bright red.

Striking pink flowers - spring.

Horticultural selection from *A. pajaroensis*.

Full sun to part shade.

Does less well in heavy clay soils.

Avoid overwatering, especially in summer.

Best when kept pruned to take advantage of the attractive foliage.

Attracts birds.
