

Artemisia californica 'Canyon Grey'

Canyon Grey Sagebrush

SHRUB - evergreen (or evergray).

1' high (to 3' if not pruned), to 10' spread.

Dense mat.

Leaves soft and silvery and aromatic.

Flowers creamy - summer.

Horticultural selection from *A. californica*.

Full sun to part shade.

Best with good drainage.

Very drought tolerant but better with some summer water
(1 x / month) once established.

Best if mowed or severely pruned every 1 to 2 years.

Will flow over a wall.

Good in rock garden.

Good, as contrast, mixed with other plants.
