

Baccharis pilularis 'Twin Peaks'

Prostrate Coyote Bush

Photographs by John R. Hyde

LOW SHRUB, GROUNDCOVER

- evergreen.

1 - 2' high, spreading to 5'.

Leaves small, toothed on outer half.

Bright green in spring to gray-green
in summer.

Horticultural selection from cuttings on
north coast.

Full sun to part shade.

Frost and wind resistant.

Water 1 x / month once established.

Can tolerate summer irrigation, but should
not be overwatered.

Dependable bank cover for minimal maintenance.

Fire resistant.
