

Ceanothus 'Frosty Blue'

Frosty Blue Ceanothus

LARGE SHRUB - evergreen.

8 - 10' high, 10'+ spread.

Upright, mounding.

Shiny, deeply furrowed, dark green leaves.

Showy bloom in spring. Dense clusters of sky blue and white flowers give frosted appearance.

Hybrid, random: *C. thrysiflorus* x *C. arboreus*?

Full sun to part shade in inland areas. Frost resistant.

Good in heavy soil.

Water 1 - 2 / x month once established.

Grows very fast. Best of upright *Ceanothus*.

Tolerates garden conditions.

Good background and screen plant, and on slopes and banks.

Can be shaped into a small tree or informal hedging.
