

# *Epilobium* 'Catalina'

## Catalina Fuchsia

### HERBACEOUS PERENNIAL

1½ - 2' high (up to 4 - 5' in shade), 4' spread.

Erect or spreading.

Leaves gray-green (grayer than species).

Bright red-orange flowers - summer to fall.

Horticultural selection from *E. californica* from Catalina Island.

Full sun to part shade.

Frost resistant.

Well-drained soil.

Drought tolerant once established, but best with occasional summer water.

Can rot if overwatered when dormant.

Adds bright color to late summer garden.

Attracts hummingbirds.

Can/should be pruned back after bloom.
