

Garrya elliptica 'Evie'
Evie Silktassel

SHRUB, SMALL TREE - evergreen.

6 - 10' (shrub), 20 - 20' (tree).

Leathery, wavy edged leaves, dark green above, woolly below.
Showy white or greenish flower catkins, 3 - 12" long, give
weeping effect - December to March.

Horticultural selection from cuttings of *G. elliptica* by James
Roof.

Full sun to part shade.

Well-drained soil.

Somewhat drought tolerant, but better with some summer water.

Slopes, screen, informal hedge or specimen.
