

Juncus xiphooides
Iris-Leaf Rush

PERENNIAL RUSH - evergreen.
1 - 3' high, spreads by rhizome to 2+'.
Leaves have flat blades.
Flowers in spring.

Native Habitat: Moist locations in many plant communities
below 7000' - from Oregon to Baja California and Arizona.

Full sun to shade.
Tolerates sandy soil. Tolerates seasonal flooding and must be
kept moist.

Good as clumps mixed with other water-loving plants. Easy to grow.
