

*Penstemon heterophyllus* 'Blue Springs'  
Foothill Penstemon Blue Springs

HERBACEOUS PERENNIAL

12-20" high.

Many-stemmed — upright or spreading.

Shiny, bluish green leaves, sometimes with red tinge.

Bright blue, tubular flowers — spring to summer.

Horticultural selection.

Full sun to part shade.

Frost and heat tolerant.

Well-drained, rocky soil best.

Little to moderate summer water necessary, but will accept more.

Good for borders in front of large shrubs, and in mixed border.

Blooms longer with irrigation and with cutting back spent flowers.

Can be cut back after blooming.

Attracts butterflies, hummingbirds.
