

Salvia apiana X *clevelandii* 'Vicki Romo'

White Sage 'Vicki Romo'

Photographs by Torrey Neel

PERENNIAL Shrub

3'-5' high, 3'-5' wide, erect to sprawling.

Leaves lanceolate, gray-green.

Flowers in clusters like *S. clevelandii*, but larger, pale lavender.

Fragrant.

Native Habitat: both parents are from coastal sage scrub < 7500'.
- coastal southern California

Full sun.

Tolerates poor soils.

Low summer water, 1x / month

Good on slopes
