

NOTE: May not be totally accurate as written for another dwarf selection

Sisyrinchium bellum 'Dwarf'

Blue-Eyed-Grass

PERENNIAL (Iris Family)

6-12" high.

Forms clumps to 1'+ wide.

Leaves grass-like, wider and shorter than those of *Sisyrinchium bellum*.

Flowers bluish-violet, variable, long bloom in spring.

Horticultural selection (dwarf version).

Native habitat: many communities below 3000' — statewide.

Full sun to part shade.

Frost resistant.

Tolerated clay soils.

Will tolerate some drought, but stays green with summer water.

Good accent in rock gardens.

Reseeds.

Attracts butterflies and other insects.
