

*Brodiaea* spp.  
Brodiaea species

Photographs by Margaret L. Fillius

PERENNIAL from CORM

5 - 30" high.

Flowers blue-violet to pink-purple - late spring to early summer.

Native habitat: Grassland, meadows.

Full sun.

Will tolerate drought.

Need good drainage but adaptable to different soils.

Good in rock garden. Good color mixed with other annual flowers. Can be used as a cut flower.
