

*Ceanothus arboreus*

## Island or Feltleaf Ceanothus

LARGE SHRUB or SMALL TREE - evergreen.

15 - 20' high, 12' spread.

Large glossy leaves with white felt-like underside.

Long, fragrant spays of pale blue flowers - spring with minor bloom in fall.

Native habitat: rocky slopes, woodlands, chaparral below 900'  
- Channel Islands.

Full sun but part shade inland. Best close to the coast.

Tolerates clay soil, but best in well-drained soil.

Minimal water (1 x /month) once established.

Can be trained into tree shape.

Very fast growing.

Good background, screen, slopes and banks. Not near lawns.
