

Salvia 'Gracias'

Gracias Creeping Sage

Photograph by Margaret L. Fillius

SHRUB - evergreen.
1 - 2' high, To 7' spread.
Leaves gray-green.
Flowers blue-purple - spring to early summer.

Cultivated hybrid - *Salvia sonomensis* and unknown *Salvia*.

Full sun. Frost resistant.
Tolerates a wide variety of soil.
Drought and heat resistant.
No water needed once established.

Use in a rock garden, or let it spill over a wall. Also good in retainer beds.
Prune as needed.
Fragrant. Attracts hummingbirds and butterflies.
